The Leader in Holistic Safety

Navigate360 Emergency Management

Safeguard Your Schools with Holistic Emergency Management

Setting a Course for Zero Incidents

The Navigate360 Zero Incident Framework is a robust platform that includes technology, training, and guidance to help schools plan and implement effective safety, intervention, and character solutions that bring them increasingly closer to a future of zero incidents.

Like you, we at Navigate360 understand that staff and student safety and well-being is complex, multi-faceted, and dynamic. **We understand it's not easy, and we are committed to leading a transformative movement in school safety, redefining the very concept of "safe" to encompass not only physical security, but also the emotional well-being of all people.**

As safety leaders, we must acknowledge the evolving nature of incidents and emergencies taking place in today's world, and take proactive steps to comply, prepare, and respond. **Navigate360 Preparation & Response solutions help maximize your readiness to act.**

Navigate360 Detection & Prevention solutions offer a helping hand and bring visibility to the unseen, producing actionable insight to proactively address concerning behaviors, intervene, and mitigate potential harm before incidents occur.

Navigate360 Character & Culture solutions build character, offer supportive interventions, and give everyone a sense of well-being, setting the foundation for student confidence, learning, and a positive school culture.

One Software Suite for Compliance, Preparation, Response, & Reunification

Streamline your emergency planning to ensure readiness, minimize response time, and equip teams for fast and accurate reunification.

- Create Emergency Operations Plans
- Track, schedule, and report regular drills
- Maintain up-to-date campus mapping
- Activate instant alerts and real-time communication
- Prepare for and enable efficient family reunification during an emergency
- Leverage powerful integrations

Save Lives with Comprehensive Planning

Streamline your emergency planning processes with powerful software and integrated services to ensure compliance.

Create & Manage Safety Plans

Build, maintain, and disseminate Emergency Operation Plans (EOPs) with our user-friendly platform. Utilize provided templates to ensure full compliance with state and federal requirements.

Identify Security Vulnerabilities

Ensure security policies and procedures are robust and compliant. Our Security Audit meticulously examines your current procedures, offering insights that are aligned with best practices and regulatory standards.

Mitigate Risk

Utilize recommendations from on-site professional risk assessors to enhance physical security features, close gaps in training, and maximize effectiveness of protocols.

Save Lives with Thorough Preparation

Ensure staff and first responders are equipped with the right training and tools for any emergency.

Integrate Protocols

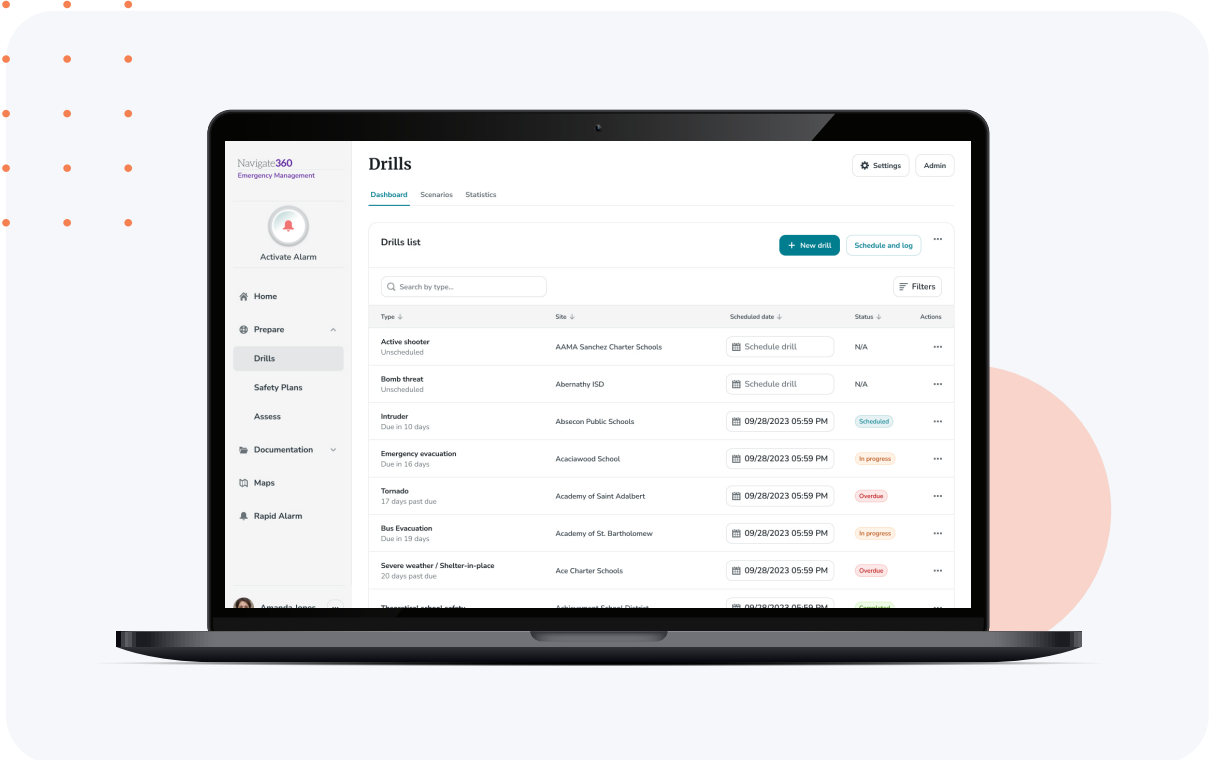

Enhance preparedness by seamlessly integrating standard response protocols into your system, ensuring a swift and coordinated response during emergencies.

Maintain Up-to-Date Information

Safeguard your campus by consistently updating and managing crucial information in flipcharts and virtual binders, guaranteeing current and accurate information is easily accessible.

Manage Drills

Stay compliant with district and state regulations by efficiently scheduling, tracking, and reporting on emergency drills, utilizing our comprehensive tools to streamline the management of crucial preparedness exercises.

Save Lives with Rapid Response

Minimize response times and maximize effectiveness.

Accelerate Response

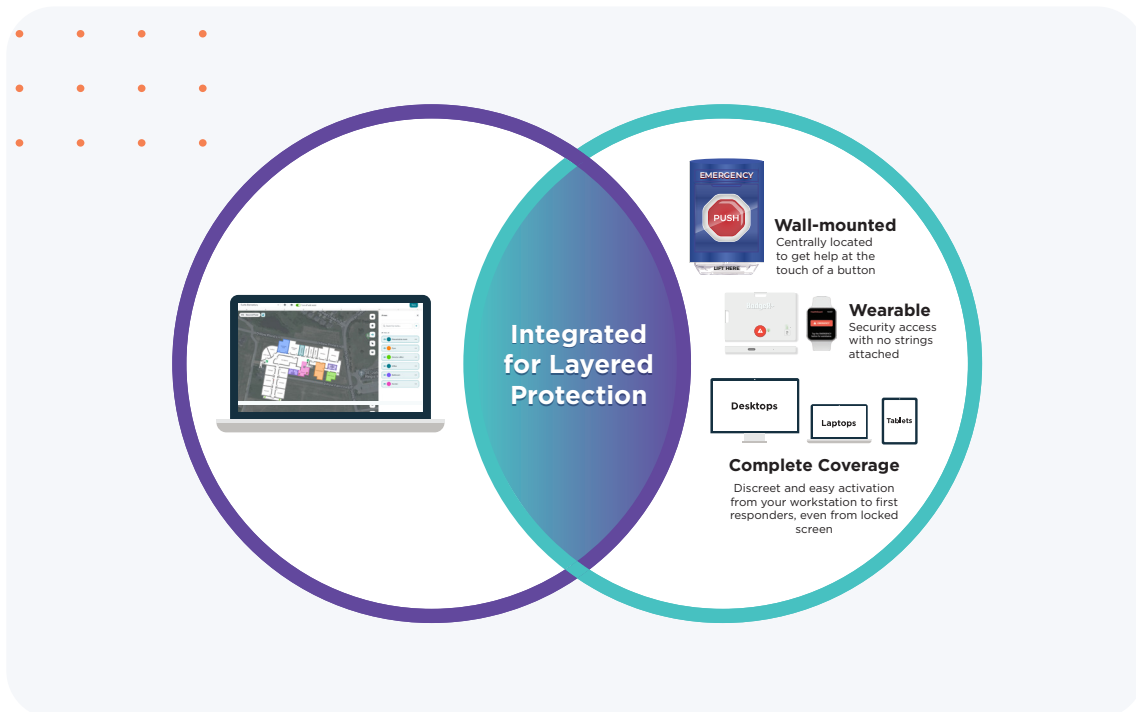

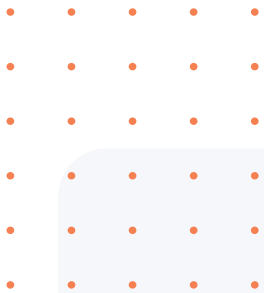

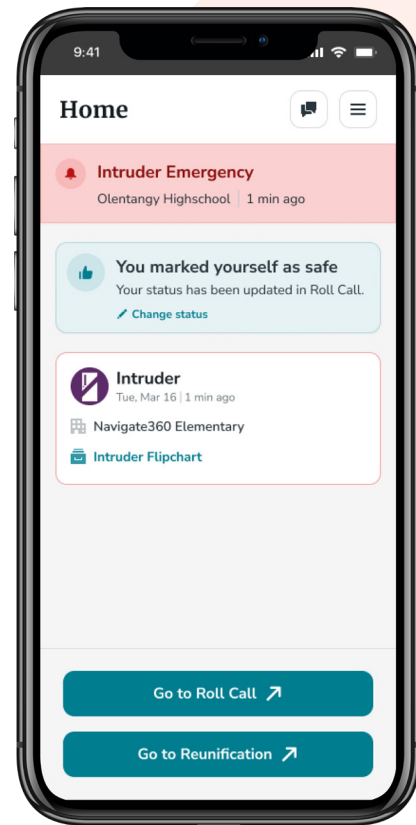

Reduce emergency response times with instant alerts that communicate crucial emergency response information to safety teams and first responders.

Enhance Communication

Empower safety teams and first responders with immediate on-line access to site maps and floor plans, EOPs, staff and student information, and call lists.

Comply with Alyssa's Law

Equip your campus with wireless panic alarm technology, ensuring instant alerts and vital incident information reach first responders swiftly.

Mitigate Trauma with Thorough Reunification Plans

Reunite students with approved guardians swiftly and accurately to reduce ongoing traumatization after a critical incident.

Integrate Systems

Integrate your school's Student Information System with Emergency Management to ensure rapid, accurate accounting for all students and staff during and following an emergency.

Prepare Staff

Plan and implement a rapid student-guardian reunification process that forestalls the emotional difficulties experienced following an emergency.

A Layered, Holistic Approach to Safety

Navigate360 stands at the forefront of enhancing staff and student safety and overall well-being by offering schools a layered, holistic platform. In striving for zero incidents, adopting a comprehensive, layered strategy offers the following advantages:

Consistency & Reliability:

Guaranteeing coherence and effectiveness throughout your entire district.

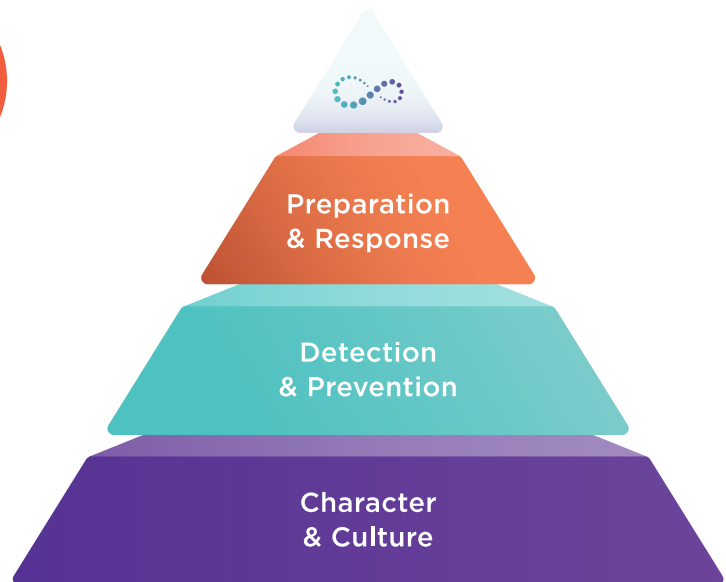

Adaptability & Future-Proofing:

A single, adaptable solution that caters to your present requirements while being primed for future expansion.

Streamlining & Intelligence:

Centralizing your district's suppliers, technology, and data for simplified operations and actionable insights.

Contact us today to learn more about taking this important step toward a future of zero incidents.
