

Navigate360 Panic Button Solution

PRIORITIZE EMPLOYEE SAFETY WITH IMMEDIATE ACCESS
TO FIRST RESPONDERS & BUILDING SECURITY PERSONNEL

Navigate**360**

Building safer tomorrows.

Workplace Safety is a Top Priority

Providing a safe and secure learning environment, whether from a man-made emergency or a hazardous situation, is a top priority for schools & districts.

Lessons learned from school emergencies highlight the significance of providing school staff with immediate access to first responders in the event of a crisis or to reach security personnel to address local disturbances. By providing staff with panic alert button options, it creates layers of protection that support protective measures for stopping an emergency from occurring or reducing the impact of an incident.

Weather data suggests that natural disasters are on the rise. According to the National Centers for Environmental Information (NCEI), 2020 was the sixth consecutive year in which 10 or more climate and weather events that cost \$1 billion or more impacted the United States.

From 2018 to 2020, there were 50 such events that, together, caused a total of \$237.2 billion in damage.

Beyond natural disasters, incidents of violence are also trending upward. The National Center for Education Statistics has reported an upward trend in violent incidents and crisis situations on school campuses over the recent years. Paralleling those trends, the K-12 School Shooting database reported 303 incidents in 2022. Given these increases, districts must ensure staff and students are able to immediately connect to first responders in the event of a critical incident.

These alarming statistics leave districts, schools & state legislators struggling to create more effective policies and communication pathways that will keep students & staff safe.

Achieve School Safety & Security

- + Discreet and easy activation
- + Locked screen activation from Windows computers & iOS mobile devices
- + Indoor location accuracy & location tracking
- + Maintain your privacy settings even when the safety app is installed on a mobile device

The Right Information to the Right People

- + Send lifesaving communications and alerts to local Public Safety Answering Points (PSAPs)/9-1-1 Dispatch
- + Activate silent panic buttons with livestreaming audio &/or video based on device type
- + Improve first responder situational awareness with security camera integration
- + Expand protection through geo-fencing technology for students & staff while at off-campus events

Create a culture of safety within the school environment with Navigate360's panic button solution, powered by 911Cellular Technologies. Our panic buttons provide silent and immediate access to first responders and building security personnel.

Navigate360's partnership with 911Cellular Technologies equips public, private and charter schools with the most modern panic button solution on the market. Our panic button solution provides layers of protection so students & staff can feel safe and protected, with immediate access to first responders via the Public Safety Answering Point (PSAP).

911Cellular's technology has been independently tested by the National Institute of Standards and Technology (NIST). Panic button location accuracy can locate a caller to the floor and room number, even if they're on the move, with additional mapping service.

ALYSSA'S LAW LEGISLATION

Immediate Notification when Every Second Counts!

Named after 14-year-old Alyssa Alhadeff, a victim of the Marjory Stoneman Douglas High School tragedy, this legislation addresses the issue of emergency response time.

Setting the new standard for modern incident management and silent panic button options enables schools to directly - and silently - alert first responders when faced with a safety concern or emergency situation.

For additional information about where this legislation stands across the country, please visit navigate360.com/alyssas-law.

Layers of Protection

Compatible with Android and iOS devices

COMPUTER PANIC BUTTONS

Easy installation on Windows, Chromebooks, Mac desktops and tablet devices.

Easily initiate a silent alert to first responders or building security personnel from your computer keyboard including lock screen activation from Windows computers

Effortless software installation can be updated at any time with no additional hardware required

Audio & video streaming to first responders

Indoor location accuracy

Ethernet and Wi-Fi Network Compatible

MOBILE SAFETY APP (Tablets, Phones, & Smartwatches)

Notify first responders while on-the-go with accurate location information.

Voice-activated iOS supports mobile devices

Locked screen activation for iOS devices & icon activation for Android devices

Streams audio & video from enabled devices directly to first responders

Security camera integration for situational awareness

Indoor accuracy & location tracking

Expand mobile panic button access with geo-fencing technology

WEARABLE PANIC BUTTONS

Immediate access to your first responders or security personnel.

Connect to existing Wi-Fi with no supporting hardware required, such as Bluetooth (BLE) or Radio Frequency Identification (RFID)

Rechargeable battery lasts up to 1,000 activations & uses a USB-C cord

Smart battery detection supports on-demand low battery level notification via email or SMS

Countersunk button prevents false activations

Instant audio streaming from badge upon alert activation

Indoor accuracy & location tracking

WALL-MOUNTED PANIC BUTTONS

Emergency help at the touch of a button.

Always ready to be activated

Quick and easy installation

Remotely obtain panic button status or test any installed button

Connect to existing Wi-Fi with no Bluetooth (BLE) or Radio Frequency Identification (RFID) hardware needed

About Navigate360

Navigate360 empowers people, schools and communities to stay safe and thrive – physically, socially and emotionally.

Zero incidents is what we strive for – anything less is not an option.

THE INDUSTRY'S LEADER IN HOLISTIC SAFETY & WELLNESS SOLUTIONS

For 20 years, Navigate360 has been the most widely chosen safety partner in the United States, protecting more than 50,000 districts, schools, law enforcement agencies, businesses and houses of worship. We help communities nationwide mitigate and reduce acts of violence with solutions backed by research and developed by industry experts.

“

We have a lot of locations for one county. With 911Cellular, if there was an emergency, we could get someone there very quickly.

– COREY HOWARD,
GREENBRIAR COUNTY
SCHOOL DISTRICT

Why Navigate360?

- + A modern system for today's busy workplaces and schools that need to keep employees and students safe while still welcoming their community in.
- + Built for workplaces that value simplicity and efficiency with flexibility for employees and visitors.
- + Designed for simplicity and ease of use – removing the need for extensive and hard-to-read manuals and clunky hardware requirements.
