

Create a Safe & Prepared Workforce

Navigate360 Workplace Safety & Wellness Suite

Modern safety requires an environment in which employees feel safe physically, socially and emotionally. Meeting these needs takes an ongoing, integrated approach with an overall goal of building and enhancing a culture of safety.

Education and training across the spectrum of safety lays a critical foundation and helps build confidence in your teams. The Navigate360 Workplace Safety & Wellness Suite gives your team members access to a continually evolving library of content designed to maximize their safety on all levels.

On-demand eLearning courses offer accessibility and convenience for employees throughout your facility, including remote workers. Engaging courses bring your staff the knowledge and confidence they need to manage a variety of potential stressors and threats to safety wherever they are.

With Navigate360 Workplace Safety & Wellness Suite, your organization receives on-demand eLearning courses covering:

**ALICE
Training®**

**Personal Safety
Skills**

**Workplace Safety
& Prevention**

**Nearly 2 million
Americans
are victims
of workplace
violence annually.**

- + Promote confidence during an emergency with expert-curated courses supported by evidence & research
- + Ensure a trauma-informed approach to safety education, helping to increase retention & recall
- + Robust resources & customized reporting to help you stay compliant

Personal Safety Skills for the Workplace

Prepare and engage your employees to respond to high-stress emergencies with confidence and resilience. These courses help your entire organization prepare for and overcome the physiological challenges experienced in an emergency and put individuals in a position to recognize potentially volatile incidents and act before they escalate.

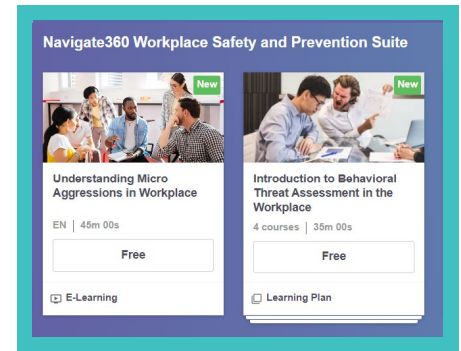

Courses include:

- + Situational Awareness
- + How to Properly Call 911
- + De-Escalation: How to Diffuse Aggression
- + Extreme Survival Stress

ALICE Training for the Workplace

ALICE is the original civilian active shooter response training program that empowers individuals to participate in their own survival using proactive, options-based strategies until help arrives. These courses provide foundational information about the communication strategies Alert and Inform and the response options Lockdown, Counter and Evacuate.

- + Supported by research to increase survivability
- + Trauma-informed delivery
- + Aligned with SAMHSA
- + Specific training for healthcare, houses of worship & universities

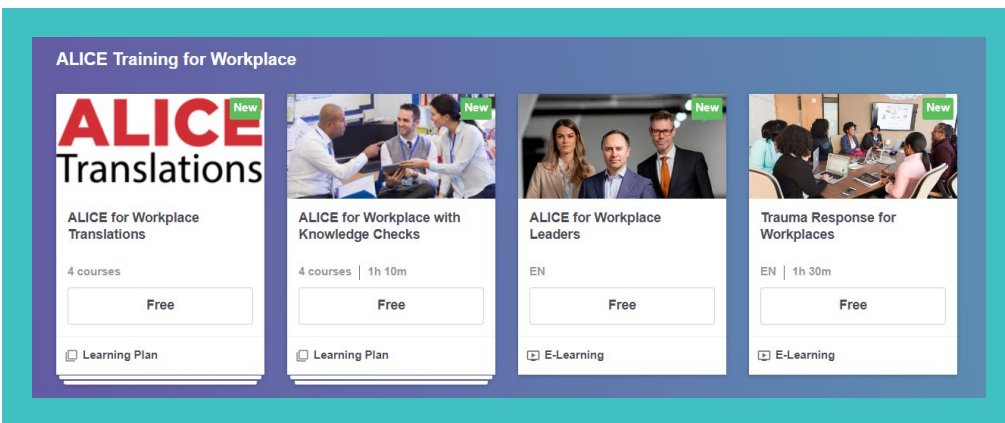

Navigate360 Workplace Safety & Prevention Suite

Navigate360 eLearning courses support a modern, holistic approach to safety education.

Courses include:

- + Understanding Micro-Aggressions in the Workplace
- + Trauma Response for Workplaces
- + Opioid & Addiction Awareness
- + Suicide Awareness & Prevention
- + Introduction to Behavioral Threat Assessment in the Workplace

From gaining critical lifesaving skills to understanding the signs of opioid addiction, you are mitigating risk, enhancing productivity and providing an environment in which your employees can thrive.
