The Leader in Holistic Safety

Compass Curriculum Scope & Sequence 2025–2026

Compass Curriculum for Students is a comprehensive curriculum for building the foundational skills that students need to achieve emotional well-being and be successful. With 40 weeks of instruction and lessons that are sequenced and delivered in a blended learning format, Navigate360 offers an extensive library of lessons available across all five CASEL competencies.

Lessons are organized into thematic units with the recommendation of delivering one lesson per week. Topics focus on the critical challenges today's schools face, and lessons are created to meet students exactly where they are, no matter what age.

Staff and Family lessons align to the student scope and sequence to ensure consistent messaging and provide opportunities to extend learning.

Compass Curriculum includes the following:

- + Differentiated instruction resources for students with disabilities and English learners
- + Engaging videos and gamification
- + Evidence-based well-being assessments and mental health screeners
- + Extension and enrichment activities to build on the foundational lesson
- + Family resources in English, Spanish, Chinese, Korean, Vietnamese, and Arabic
- + Pre- and post-lesson quizzes to gauge understanding
- + Scaffolded lessons for grades PK–12
- + Teacher Companion Guides provide no-prep plans to facilitate each lesson

Our program is flexible, and pacing can be tailored to achieve the learning outcomes desired by districts and schools. Help your students reach their full potential and thrive with Compass Curriculum!
