

Elevate Your School's Visitor Management with Navigate360

School safety is about prevention. The challenges schools face today cannot be addressed with outdated safety management tools and methods that leave them vulnerable and unprepared. Navigate360 is committed to meeting your evolving needs and elevating the effectiveness of your **visitor management** processes. We encourage all School Check In (SCI) users to consider the benefits of upgrading to a more robust, modern, and most importantly, secure system with Navigate360 Visitor Management (VM). VM contains many of the features and functionality you know and love from SCI but includes additional enhancements to **elevate your school's security** and optimize efficiency.

Navigate360 Visitor Management & School Check In

Recent Enhancements to Navigate360 Visitor Management

Staff Traveler Functionality for Admins, Staff, & Reporting

- Ability to set staff/substitutes as Travelers in new Admin settings – **Staff Tracking** page – when traveling to other buildings.
- New **Travel Reason** option at self-serve check-out to show where and why they are traveling to another building.
- Track which buildings Travelers are visiting and time spent at each with Travel Reason and **Building Traveled To** reporting options.

Volunteer Module UX Updates

A smoother onboarding process to match the look and feel of other Navigate360 applications to further streamline the check-in process while keeping security and convenience balanced.

Enable Your Staff with a More Modern, Secure Solution for Safety & Efficiency

Security and convenience can be one in the same and a modern visitor management solution needs to have both without compromising one for the other. Here are five reasons you need to switch from the convenience of School Check In to the convenience AND security of Navigate360 Visitor Management:

1. Modern user interface - VM provides an easy-to-use and intuitive experience, seamlessly fitting into the users' day.
2. Mobile app – Visitors and substitutes can check in with a QR code when they schedule a visit in advance using the mobile app. Staff can scan the QR code directly from the app.
3. Continued investment & enhancements - VM is continuously updated to ensure customers have a modern and secure visitor management system. SCI will continue to receive normal maintenance throughout 2024-2025 school year. There are no new features scheduled to be added to the platform.
4. Sex offender check included - Continue to check every guest that walks through the door against the national sex offender registry.
5. Fan favorite features - Many of the features you know and love from SCI are available in VM, including barcode/RFID scanning, SIS integration, auto check-out, and more.

A School Safety Partner You Can Trust

Navigate360 is the leading provider of layered, holistic safety and well-being solutions tailored to the unique needs of schools and educators. By focusing on the challenges school administrators face in keeping students and staff safe, we provide the right mix of products, training, and guidance to help schools implement effective safety programs towards the achievement of zero incidents.
