Navigate360:
Visitor & Volunteer Management

ENCOURAGE COMMUNITY ENGAGEMENT & CREATE A WELCOMING CAMPUS ENVIRONMENT WITHOUT SACRIFICING SECURITY

Schools thrive when communities are engaged and supportive, but balancing safety with volunteer management can be overwhelming. Applications pile up, renewals can be missed, and communication with and organization of dozens—or even hundreds—of volunteers often becomes messy and inconsistent.

Navigate360 Visitor & Volunteer Management takes the frustration out of the process by giving schools a simple, secure way to manage the entire volunteer lifecycle while ensuring every person on campus is approved, current, and accounted for. From easier applications and renewals to bulk communications and real-time visibility, schools get the control they need without adding more to their already full plates.

KEY FEATURES:

1 **Customizable Applications:** Tailor volunteer applications with custom questions, a rich text editor, and the ability to include attachments for more complete submissions.

2 **Application Expiration Workflows:** Automate expirations by time range or calendar date, ensuring only active and approved volunteers have access to the Volunteer Portal and keep communication timely and consistent with customizable email templates.

3 **Renewals & Approvals:** Send renewal requests in bulk or individually. Volunteers can easily renew through the portal or via email.

4 **Role-Based Access & Oversight:** Assign district- or building-level volunteer coordinator roles to ensure accountability across all campuses without unnecessary complexity.

5 **Streamlined Check-In & Event Management:** Simplify event check-in and attendance with driver's license and QR code scanning and email registration. Maintain accurate records with bulk uploads and the ability to edit or add volunteer visits after the fact.

6 **Communication & Engagement:** Save time with bulk email capabilities to reach volunteers registered for an event for targeted outreach.

7 **Google Translate Integration:** Remove language barriers and make the process more inclusive for non-English-speaking volunteers with Google Translate integration on Volunteer applications.

BENEFITS FOR SCHOOLS

- **Save Time** – Streamline workflows and reduce repetitive administrative tasks.

- **Stay Secure** – Ensure every visitor and volunteer is properly vetted and tracked, including checks against the national sex offender registry.

- **Ensure Inclusivity** – Encourage broader engagement by making applications accessible for diverse families.

- **Gain Flexibility** – Adapt workflows to fit district or building needs without sacrificing security.

- **Maintain Accuracy** – Keep complete, compliant records of volunteer activity to reduce liability and meet local, state, and federal requirements.

THE TAKEAWAY

Volunteer management doesn't have to be complicated, inconsistent, or time-consuming. Navigate360 Visitor & Volunteer Management unifies applications, renewals, approvals, check-ins, and communication into one secure system. School leaders gain the confidence and clarity they need to maintain safe campuses while fostering meaningful community involvement.

The result? Less time chasing paperwork, fewer opportunities for mistakes, and more energy to focus on what matters most: creating a safe, welcoming environment where students, staff, visitors, and volunteers can thrive together.

Set a course for zero incidents.

Take a layered, holistic approach to school safety with Navigate360 technology, training, and guidance to move you closer to your goal.
