## Maximize Funding Available Through The Tennessee Safe Schools Act

### Navigate360 School Safety Solutions

The Safe Schools Act of 1998 provides Tennessee districts with annual funding for school safety initiatives. Projects that qualify focus on helping schools decrease the likelihood of violence and enhance the safety of staff and students, using holistic, evidence-based solutions.

To assist Tennessee districts with this important initiative, Navigate360 is offering qualified comprehensive emergency preparedness and threat assessment solutions, designed to improve school safety and steer students off the path to violence.

### **Qualify for Tennessee Safe Schools Act funding and maximize the benefits with comprehensive safety solutions**

From prevention through recovery, Navigate360 offers smart, integrated solutions to help you mitigate risks and prevent violence. Discover how you can leverage these tools to qualify for available funding, creating safer environments for staff and students to build confidence and thrive.

### **UNDERSTAND YOUR RISKS TO MAKE MEANINGFUL IMPROVEMENTS TO SAFETY**

The foundation of your district's safety begins with an eyes-wide-open view of your buildings, processes, and procedures to determine potential weaknesses in your physical, technological and employee-led security programs.

Navigate360 offers in-depth Risk Assessments, conducted by ASIS Board-certified Physical Security Professionals. Our assessments help you clearly identify vulnerabilities, inform meaningful improvements and develop standards for emergency operations and planning.

## EMPOWER THREAT ASSESSMENT TEAMS WITH EFFECTIVE TRAINING

Strengthen your team's confidence in the threat assessment process with training on the identification of potential violent perpetrators. Gain a deep understanding of the pathways to violence, discover how to collaborate with team members and steer students on a safer path with our Behavioral Threat Assessment Training.

## SIMPLIFY THREAT ASSESSMENT – ENHANCE VIOLENCE PREVENTION

Behavioral Threat Assessment helps to address the problem of targeted violence. Navigate360's technology enhances your school's ability to conduct effective threat assessments with streamlined case management and consistency across the district.

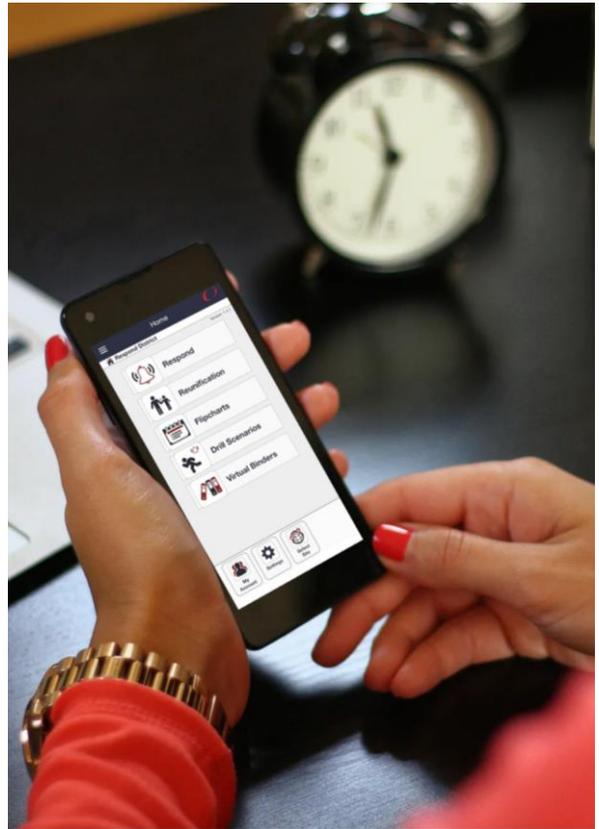

By leveraging our robust and innovative technology, the threat assessment process is simplified, enabling your team to move students off a path to violence and provide them necessary support.

## BUILD CONFIDENCE IN SCHOOL SAFETY WITH COMPREHENSIVE TECHNOLOGY

Provide staff with the tools they need to improve school safety and achieve peace of mind. Navigate360's Emergency Management Suite enables you to manage drills, send emergency alerts, account for staff and students, and manage updates to your Tennessee Safety Plans with the Safety Plan Wizard.

## YOUR RESOURCE FOR TENNESSEE SCHOOL SAFETY

We welcome the opportunity to help your schools improve violence prevention, mitigate risks and build safer tomorrows for staff and students. Contact us today to learn more about our solutions for Tennessee schools.

"They helped us take a step back and ask ourselves the tough questions. It made us question if we are doing everything possible for the safety of our students. Because if we aren't doing everything we can, are we really putting our students first? I can now sleep easily at night knowing that we are."

Jim McKay, Superintendent  
Community High School District #117

# Let's talk about Tennessee school safety.
